INDUSTRIES

Insurance

Laurie Kamaiko advises clients in a wide range of industries on emerging and complex risks associated with cybersecurity and helps them limit their exposure to cyber incidents and respond to data breaches and related litigation. She has extensive experience in counseling insurers and reinsurers on the handling of claims and coverage issues arising from these events, as well as from terrorism and natural catastrophes, and works closely with them on new product development and policy wordings.

Insurers and reinsurers also rely on Laurie for advice on other complex coverage issues, negotiation of resolutions to coverage disputes and litigation of coverage actions under various lines of insurance. Her successful representations include matters involving: general liability - Coverage A and Coverage B claims; professional liability insurance; crime and kidnap & ransom policies; environmental risks; extra contractual exposures; and first party coverages. All of these generally involve significant damages and complex liability issues that Laurie unwinds for her clients after taking the time to understand their needs and develop legal strategies in line with their goals.

EXPERIENCE

- A company experiencing a data security incident in need of advice on the multi-jurisdictional response requirements, remediation of risks to affected individuals and of the company's own computer systems, and on compliance with data security regulations and statutes.
- A company entering the cyber insurance market in need of assistance with drafting cyber insurance policy forms.
- A cyber insurer on coverage issues arising from a large data breach, including those concerning Payment Card Industry (PCI) assessments, regulatory proceedings and consumer class actions, and assistance in management of the claims arising from the breach.
- A large domestic US insurer issuing pollution liability insurance policies in addressing coverage issues arising from mold coverage of multi-family and resort facilities.
- An insurer that issues subcontractor default insurance, and cost-cap/limited

fixed price remediation insurance, in disputes.

- A specialty lines insurer on coverage issues arising from EPL, D&O and professional liability coverages.
- A general liability insurer on "other insurance" issues arising in connection with accidents noticed to multiple lines of insurers.
- A kidnap & ransom insurer in responding to reported incidents.
